

Yes! Prop. 92

Community Colleges

The chance for every Californian to go to college

Vote February 5

PROP. 92 MAKES A BETTER FUTURE AFFORDABLE AGAIN

■ Lowers student fees

More than 300,000 students left the California community colleges in 2004 when skyrocketing fees put college beyond their reach. Prop. 92 allows more students access to higher education by lowering student fees to \$15 per unit and limiting future increases.

■ Helps students become self-supporting citizens

Community college students, teen and adult, who earn a vocational degree or certificate see their wages jump from \$25,600 to \$47,571 in only three years. Prop. 92 gives all Californians the opportunity for a better future, and provides many disadvantaged students their only chance for college education.

■ Stabilizes campus funding

Uncertain funding leads to class cancellations and students often are denied the courses needed for job training or transfer to a four-year university. Prop. 92 guarantees adequate funding to meet college student needs yet leaves funding for K-12 students untouched.

70% of California's college students go to community colleges!

	Total Students ¹	Funding Per Student ²
Community Colleges	2,549,421	\$5,461
California State University	331,563	\$11,624
University of California	159,066	\$18,203
