

**Sample Resolution**  
**Support the March for California's Future**

Whereas over \$20 billion has been slashed from the California state budget over the past two budget years, and the governor has proposed still more cuts in 2010-11, and

Whereas cuts in public education, public health services, public safety programs, and public infrastructure result in a deterioration of the vital services that the people of California need and deserve, and

Whereas while these valued programs and services were being cut, the governor and Legislature passed tax cuts and created loopholes for corporations and the richest residents of the state, and

Whereas the California Federation of Teachers will be leading a "March for California's Future" from Bakersfield to Sacramento starting March 5 for six weeks in order to focus public attention on the severity of the state budget crisis as well as to viable alternatives to a cuts-only approach, and

Whereas the march will promote three themes: restore the promise of public education; a government and economy that works for all Californians; and fair budget and progressive tax policies to fund California's future;

Therefore be it resolved that the \_\_\_\_\_ supports the March for California's Future, and

Be it further resolved that the \_\_\_\_\_ will work with allies to advocate for the three themes of the march.
